

RADIATOR ACTIVE SHUTTER ACTUATORS

Active radiator shutter in a car is a solution that ensures optimal engine operating temperature, which results in reduced fuel consumption and carbon dioxide emissions into the atmosphere. The key element of the active radiator shutter assembly is the **radiator active shutter actuator**.

The SRLLine active radiator shutter actuators are manufactured in a modern factory that meets the highest IATF 16949:2016 standards. This guarantees precise workmanship and reliability. The use of the latest production technologies and modern CNC tools means that each element is fitted with very high precision, minimizing the risk of failure.

Each SRLLine actuator is subjected to detailed tests to verify:

- **durability** (duty cycle tests),
- **resistance to shocks and heavy loads** (vibration tests),
- **resistance to low and high temperatures** (simulation of extreme conditions).

Available SRLLine active radiator shutter actuators.

Polcar number	Application	OE number
13D2SZ-1	CUPRA ATECA, 02.18-08.20	95B965501F, 95B965501H, 95B965501B, 95B965501S, 95B965501AA, 95B965501A
20E1SZ-1	BMW 5 (G30/G31), 05.17-08.20	111466512
3176SZ-1	JEEP CHEROKEE, 09.18-	5877R1006, 68298531AB
32C3SZ-1	FORD FOCUS, 04.18-12.21	JX6B8476AA
32D2SZ-1	FORD FUSION USA, 03.16-	HS738476A
32T2SZ-1	FORD EXPLORER (U625), 05.19-	L1MB8476BA
32T2SZ-2	FORD EXPLORER (U625), 05.19-	L1MB8476AA
43T2SZ-1	JAGUAR E-PACE, 11.17-	5877R1007
55C1SZ-1	OPEL ASTRA K, 10.15-02.22	23164428, 84089658
90C2SZ-1	VOLVO V40, 07.12-08.19	6466R420, BM518476AB

Active radiator shutter actuators are presented in the eCar catalog and in the online catalog (www.catalog.polcar.com) in the tab:

[Body and associated parts] ▶ Body parts ▶ Front panels, crossmembers and their components ▶
▶ Radiator active shutter actuator
